

HQ ENVIRONMENTAL  
ENHANCEMENTS

PALETTE, MATERIALS, PLANTS & DECOR

The focus of environmental enhancements across the Talking Rain campus is rooted in a desire to create cohesion across buildings and to reflect our PNW heritage in a “brand right” manner by emphasizing the natural and authentic, bringing the outdoors indoors, and leveraging the Talking Rain brand personality more effectively by expanding it in various forms throughout physical space.

PMS Metallic Silver 877

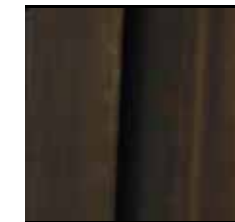

## MATERIALS PALETTE

Vinyl - Wood Texture

Dimensional Metal

Reclaimed Steel Beams

## PLANTS

Ferns

Japanese Sedge

Pothos

Spider Plant

Aloe

Snake Plant

## MATERIALS & PALETTES

**BRING THE OUTSIDE IN**

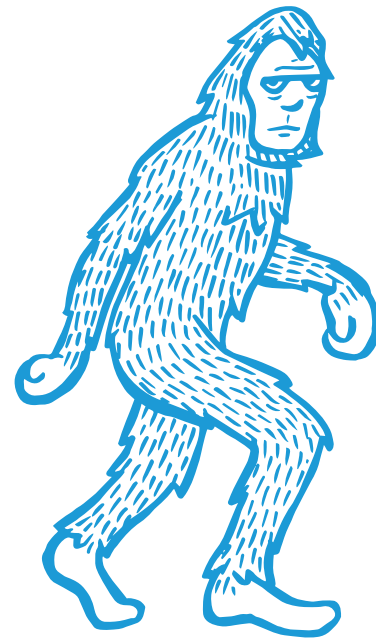

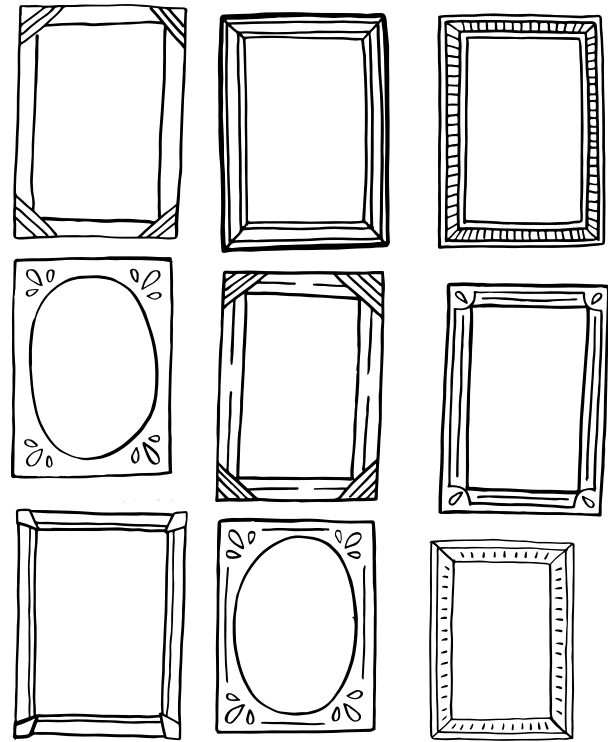

Let our PNW heritage shine through local photography and the introduction of moss walls, wood features and plant fixtures that elevate moss, plants, and even the water and dirt they're planted in.

DECOR MOTIFS

## BRAND EXTENSION

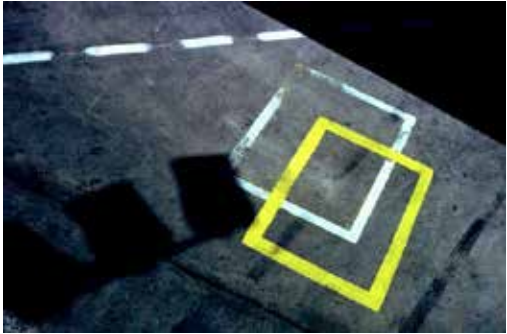

Bring in the brand's personality by carrying our brand doodles through the environment in various forms as well as extending the artwork into poster series that bridge TR Corp, SI and give a nod to the natural by direct printing to europly.

DECOR MOTIFS

**PLAYFUL DIMENSION**

Create artful, tactile and immersive moments of surprise and delight (big and small) that connect back to Talking Rain's heritage, products and playful personality.

DECOR MOTIFS

**INVITATION OUTDOORS**

Outdoor activity, togetherness and healthy living are part of the Talking Rain culture. By bringing green spaces closer to campus and creating an outdoor space employees can rest in and play in, we help that culture and its people thrive.
